

Nyons AOP Black Olive Gin

Nyons AOP Black Olive Gin is one of the house's original creations. This olive gin, with its aromatic and unique profile, combines the flavor of Nyons black olives and citrus notes with the slightly spicy taste of juniper berries. An authentic gin, worthy of the craftsmanship of the Gabriel Boudier family, liqueur makers in Dijon since 1874.

Product development

The crafting of our Olive Gin involves separate distillations of 6 botanicals in the family copper still: Nyons black olives, juniper, coriander, sweet orange peel, angelica, and iris. These distillations result in 6 concentrates, known as "alcoholates." The alcoholates are blended and then diluted to 40% ABV.

Expert's assessments

AROMA : A delicate aromatic profile, with notes of olives supported by hints of juniper and citrus.

PALATE : A fresh juniper attack with a subtle intensity of olives, offering a clean and dry finish.

Usage

The Nyons AOP Black Olive Gin is perfect as an aperitif or mixed with a good tonic. Its fresh taste with olive notes will make your Gin & Tonics memorable.
