

# GABRIEL BOUDIER DIJON®

## Blueberry Liqueur

---

### Product development

Our Blueberry Liqueur is crafted from carefully selected blueberries and raspberries, infused in a hydroalcoholic base to extract their full natural flavour. After maceration, the infusions are blended with water and sugar to create a rich, velvety liqueur with 20% ABV.

### Expert's assessments

During the tasting of our Blueberry Liqueur, you'll discover a harmonious blend of flavours.

**AROMA:** An intense nose of fresh blueberry, enhanced by red berry notes and a touch of tangy raspberry.

**PALATE:** A smooth, velvety opening gives way to a burst of ripe blueberry flavour. Raspberry adds a balanced freshness, while the creamy texture elevates the experience, leading to a finish that's both indulgent and refined.

### Usage

Blueberry Liqueur is perfect for adding a twist to classic cocktails or enhancing a digestif. It pairs beautifully with gin, vodka, or cognac, and can also be used in the kitchen to flavour desserts or fruit-based sauces.
