

Passion Fruit Liqueur

Gabriel Boudier's Maracudja Liqueur is undoubtedly one of the most exotic references in the range.

Product development

The Maracudja liqueur is crafted from passion fruit infusion. We perform a highly concentrated maceration of the passion fruit to which we add citric acid. Then, we add sugar, which is dissolved cold directly into the alcoholic infusion. To achieve the perfect balance of flavor and a flawless liqueur, Maison Gabriel Boudier pays special attention to precise measurements and the high quality of sugar used.
